MEMORANDUM TO: THE DIRECTOR

SUBJECT: Director's Operational Handbook

1. We have noted with concern and hope you notice ORE's statements under Section IV entitled, "Adequacy of Intelligence Information," in the middle of the first page of ORE's summary for February 1950 in the big Director's Operational Handbook.

2. We are always trying to get the Attaches and Foreign Service to increase and improve their reporting activities. This makes it look as though we should make similar efforts within CIA.
